THE CLASSIC REBEL

for a traditional lifestyle

With a deeply rooted appreciation for historical design elements, the Classic Rebel likes to break the rules. In this dwelling, the design foundation is traditional in nature with a rebellious twist. Classic traditional patterns are mixed and matched to make a grand impact. Rich luxurious textures appear across streamlined forms, rugs become art and lighting is elegantly decorative. Every visual element of the space feels reminiscent of times past, yet is anything but conventional.

The Escape Artist embraces the use of a myriad of styles to experience a true sense of design freedom. The foundation of this casual style tends to lean more minimalist, featuring light and airy color palettes, accent pieces with a hint of both rustic and modern appeal, and layered rugs to create an overall warmth and depth to the space.

THE MOD SQUAD

for a modern lifestyle

Featuring abstract forms that are full of color and streamlined geometric patterns, this style appeals to those who want to push the limits of design, much like the famous abstract artist Piet Mondrian did with the canvas. Black and white rugs create a foundation that acts as a visual balance, while a riot of bold and colorful accents invite a playful rhythmic energy into the space. This clean and minimalist aesthetic features lacquered finishes and gold accents, juxtaposed with softer textiles.
